

MAXILIGHT™

Integrated Fabric Fronted Projected 4K Soft Light System

- Powerful integrated unit provides precision-controlled soft light with deep penetration.
- Compact and lightweight – easily positioned or moved by a single operator.
- Perfectly balanced rigid system will not sag even with hard grids.
- User-configurable diffusion options with easy-access side-mounted multiple diffusion frames.
- Accepts standard size soft and hard grids for light control.
- Multiple PAR 64 lamps in a precision-controlled lighting ensemble – bright, economical, and reliable.

The Maxilight™ is a fabric fronted 4K lighting instrument designed from the ground up as an integrated unit powered by multiple PAR 64 globes. Remarkably powerful yet as soft as desired with your choice of diffusion loaded into multiple frames. Individual control of the lamps and multiple circuits allow choices of power supply and output. Standard sizing allows the use of existing hard and soft grids.

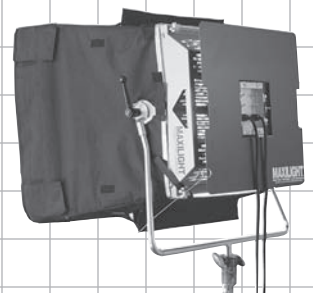

Maxilight is the perfect solution for soft projected light in film/video/HD applications. Each lamp is individually switched at the fixture for ultimate control. Put the desired quality of light right where you want with the Maxilight.
